Magnuson Group provides a unique blend of excellent product design, quality, value and customer service. We have built our name by designing, manufacturing and marketing the industry’s finest products within our focused niche of support furniture and accessory products. We represent the contract furniture market’s most complete line of high-design accessories and support furniture for commercial facilities.
Design Story
Designed by MG Studio, the aesthetically pleasing Slope features an angular top providing accessible and identifiable recycling streams while preventing waste from being left on top of the lid. SLOPE is offered in stainless steel or powder-coat finishes, and offers a myriad of combinations to suit any customer space and requirement. Available in both a standard height 38-gallon and a “junior height” 32-gallon unit, SLOPE features 3 single top openings [waste, recycling & paper] and 5 double-top openings [combinations of these] for maximum flexibility. SLOPE tops are available in six paint colors and can be paired with bodies of powder coat painted steel, brushed stainless or polished stainless steel. All SLOPE units include integrated bag arms and an optional internal rigid liner. Made in the USA.

Customer Service
Magnuson Group is proud of its reputation of providing outstanding customer service. We listen to your questions, concerns and opinions respectfully and will always try to assist our customers efficiently and most importantly in a friendly manner.
Product Specifications

Slope Ordering Instructions

HOW TO ORDER SLOPE

When ordering Slope, a model and a selection must be made from each option below and noted on the order. Special notes as follows:

- Single top opening units include one reference label
- Double top opening units include two reference labels
- References are placed on top of lid above top opening
- Labels for double top units are printed in slightly smaller font size
- *Specify on order if Multi-Lingual pictogram is to be supplied in lieu of Standard English label

Order Example:

Model # SLP-02L-DBL
#1 Dark Anthracite Body
#2 Capri Blue Top
#3 Recycling/Recycling Opening
#4 Cans label on left side, Plastic Label on right side.

Slope - Waste & Recycling Receptacles

Locally Sourced
Magnuson Group recognizes the increase in demand for building materials and products that are extracted and manufactured within the region, thereby supporting the use of indigenous resources and reducing the environmental impacts resulting from transportation.

- 100% of Slope materials are sourced within 95 miles of MG HQ
- 0% of Slope materials are sourced outside 95 miles of MG HQ

LEED v4
Slope contributes to various LEED prerequisites & credits. Specific products cannot be LEED-certified, but they can support LEED criteria. For general questions about LEED, please contact USGBC.

MAGNUSON GROUP CERTIFICATIONS

Indoor Advantage Gold Certification (SCS)
Indoor Advantage Gold certification is SCS Global Services' highest level of indoor air quality performance for furniture. The certification assures that furniture products support a healthy indoor environment by meeting strict chemical emission limits for volatile organic compounds (VOCs). To be certified, products must be tested by independent labs for compliance with the ANSI/BIFMA X7.1, and either ANSI/BIFMA e.3 or CDPH/EHLB Standard Method V1-1 for VOC emissions of concerns.

US Green Building Council (USGBC)
Magnuson Group is a proud member of the US Green Building Council (USGBC), which supports the advancement of the latest in innovative building practices & minimalizing environmental impact for a more sustainable built environment.

MAGNUSON GROUP GENERAL SUSTAINABILITY PRACTICES
Magnuson Group recognizes the importance of being good stewards to the earth. We incorporate positive environmental processes into all facets of the company. Whether the process is administrative in nature, or is in manufacturing, Magnuson Group strives to ensure that environmental concerns are made a part of the system. Some specifics include:

- Steel
- Wood
- Plastics
- Fabrics
- Aluminum
- Packaging
- Paints
- Import
- Paper
- Plating

MANUFACTURING PRACTICES

Manufacturing Process
The manufacturing process with Slope starts with partially recycled steel. The cold rolled carbon steel is formed and given a paint color with a low emitting powder coating.

All steel is sourced locally, within 95 miles of Magnuson Group’s headquarters in Woodridge, IL, where final assembly occurs. Magnuson Group’s vendors are carefully selected based on craftsmanship, location and environmental practices among other considerations.

MAGNUSON GROUP GENERAL SUSTAINABILITY PRACTICES

Magnuson Group recognizes the importance of being good stewards to the earth. We incorporate positive environmental processes into all facets of the company. Whether the process is administrative in nature, or is in manufacturing, Magnuson Group strives to ensure that environmental concerns are made a part of the system. Some specifics include:

<table>
<thead>
<tr>
<th>Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Steel</td>
<td>All steel scrap is 100% recycled. Steel is manufactured with 30-40% post consumer material and is 100% recyclable.</td>
</tr>
<tr>
<td>Wood</td>
<td>Magnuson Group strives to always source wood from F.S.C. sources.</td>
</tr>
<tr>
<td>Plastics</td>
<td>Plastics are 100% recyclable.</td>
</tr>
<tr>
<td>Fabrics</td>
<td>Fabrics are manufactured from 100% post consumer materials, and is fire rated to: ASTM E-84 Class 1 or A.</td>
</tr>
<tr>
<td>Aluminum</td>
<td>All aluminum scrap is 100% recycled. Aluminum comes from 10-20% post consumer material and is 100% recyclable.</td>
</tr>
<tr>
<td>Packaging</td>
<td>Packaging comes from a minimum of 35% post consumer material and is 100% recyclable.</td>
</tr>
<tr>
<td>Paints</td>
<td>All paints used are certified to be of low VOC content &lt; 50g per liter. They emit no hazardous air pollutants (HAP) or noxious fumes when exposed to fire NFPA 704 Health = 1, Fire = 1, Reactivity = 0.</td>
</tr>
<tr>
<td>Import</td>
<td>We import products from various countries in Europe. Most but not all are certified ISO 9001-14001 Environmental Management Systems. Please contact us if you need further information.</td>
</tr>
<tr>
<td>Paper</td>
<td>All paper and packaging waste is 100% recycled.</td>
</tr>
<tr>
<td>Plating</td>
<td>Plating is kept to the absolute minimum. Our plater’s meet or exceed all Illinois EPA, Federal EPA, and OSHA mandated standards; all plating is RoHS compliant. Our plating emits no hazardous air pollutants (HAP) or noxious fumes when exposed to fire. We certify that there is no asbestos in any of the products we manufacture or import for sale.</td>

MAINTENANCE & USE & DISPOSAL

Cleaning
Slope can be cleaned using a damp cloth and mild non-abrasive cleaner.

Ergonomic
Product is designed for ergonomic use, which will continue to service life.

Recycling
At the end of it’s life cycle, Slope can be disassembled and recycled. The body is made primarily of steel, one of the most recycled materials on the planet, and the internal rigid liner is made of plastic, which is also easily recyclable. Receptacle is designed to maximize recycling rates through design, graphics, and signage placement.
